

DorSuite®

Pull Handle Wrap

Powered by **Microbic™**

Puretouch® is a self-adhesive antimicrobial surface wrap. The active ingredient is Microbic™ AMS001.

This self-adhesive pull handle wrap is 75 x 250mm this is wide enough to fit round the two most common diameters, 19mm and 22mm and long enough to provide a good area to grip. The easy to apply surfaces are a high quality composite fabric which is durable and soft to touch. The clear Puretouch® graphics provides a clear message to everyone that this is a safe to touch surface. The surface should be washed or wiped with regular cleaners and will last approximately 90 days depending on traffic. When it's time to replace, just peel off and stick on a new one.

Product Code	PT04
Pack Size	25
Alternative Artwork	Clean Design or Steel Design
ISO 21702: 2019 Measurement of Antiviral Activity	94.38% reduction
ISO 22196: 2011 Measurement of Antibacterial Activity	99.9% reduction
Country of Manufacture	United Kingdom
Adhesion Classification	Removable
